

# Training Incentive Program

At Diamond Data Systems, our goal is to make sure that you are getting the most out of The Uniform Solution. Work with your dedicated support rep to learn how become an expert. For every training category that you complete within your first 90 days, you will earn half-off a month.

That's up to **4 months at 50% off!**

## Ordering & Receiving

Get to know your inventory! Learn what you are selling, set up electronic ordering, and set stock levels to keep on hand for your most popular items. Once a shipment has arrived, make sure your employees know how to get it into stock efficiently.

- Create a group of memorized reports to be run:
  - Top 40
  - Vendor Comparison
  - Open Special Orders
- Send three Purchase Orders via EDI to at least two different vendors.
- Set max/min levels for ten styles under at least two different vendors.
- Use an ASN (advanced ship notice) to receive your shipments into the program "by the box".

## Communication & Delivery

The Uniform Solution helps you keep in touch with your customers; make sure you are setup to take advantage of all communication channels. After stock comes in, ensure your employees know the delivery process for special orders.

- Set up at least one POS station to prompt to send receipts via email.
- Send a text message to a customer whose order is ready for pickup
- Finish out the special order process by "Delivering" the product on at least one invoice.

## Webstore & Salesfloor

Make sure that you are reaching your customers 24/7. With the webstore they can easily shop online, see your in-store stock levels, and use contracts for group buying. The mobile app makes knowing what's in stock on the salesfloor a click away.

- Take your webstore live
- Create a contract and activate it for use on the webstore with a sign-in code
- Set up and use the mobile app. Use it to check the stock level of an item in a particular size.

## Credit Card Integration

Take human error out of the equation and integrate your payment processing. The Uniform Solution connects with both ChargeItPro and OpenEdge to offer two solutions to choose from.

- Integrate payment processing
- Ask about adding gift cards

**\*Bonus Items\*** Learn even more by asking your support rep about seeing User Activity Logs, utilizing the Time Clock feature, and how to receive a payment for on account invoices.

Incentives aren't over! Refer a customer that signs up for The Uniform Solution  
and get \$200!
